Uniden®

PRO501TK

NOAA Weather Radio

40-Channel Handheld CB with Magnetic Mount Antenna

The Uniden PRO501TK includes the CB features you need every day. 40 CB channels let you tune in to the action channels or break away to do your own thing. The PRO501TK comes complete with a High Gain Magnetic Mount Antenna. This will greatly increase the transmit and receive range by simply placing the antenna outside your vehicle. The ultra strong magnet will hold it firmly in place.

NOAA Weather keeps you informed when severe weather threatens. And, the Dual Watch feature lets you talk on one channel, while keeping an ear on another channel you are interested in.

The PRO501TK can be used with the included flexible rubber antenna and rechargeable or Alkaline batteries for portable use. Remember, Uniden is *the* name in CB radios.

PRO501TK

40-Channel Handheld CB with Magnetic Mount Antenna

- Full 40 Channel Operation
- Handheld CB Radio
